Program Disclosures

As articulated in Standard I.B.2, programs may have “admission and employment policies that directly relate to affiliation or purpose” that may be faith-based or secular in nature. However, such policies and practices must be disclosed to the public. Therefore, programs are asked to respond to the following question.

Does the program or institution require students, trainees, and/or staff (faculty) to comply with specific policies or practices related to the institution’s affiliation or purpose? Such policies or practices may include, but are not limited to, admissions, hiring, retention policies, and/or requirements for completion that express mission and values.

Doctoral students may enter the program with credit for prior graduate work, but will only be approved for up to 9 transfer credit hours that can be applied towards their degree. We evaluate transfer credit for students entering with prior graduate coursework on an individual basis once they have been admitted to the program, but typically tell our applicants not to assume they will receive credit for prior coursework, and will still need to spend approximately 5 years (inclusive of predoctoral internship) in the program before graduating with their doctoral degree.
